| Description of activities | Activity area is concerned with the advanced wastewater treatment technologies, sewage sludge processing and renewable energy production. It focus on designing and building waste water treatment plant, WtE plants, especially in implementing new technologies for example connected with nitrification and denitrification process, sludge disintegration in fermentation process, co-fermentation. Company is involved in research investments and cooperation with scientists from Polish universities concerned with environmental protection, in particular in the biogas production process, energy from biomass, waste to energy | | | | | |
| Range of activities (please tick) | | <i>pre-treatment systems</i> | x | <i>digestion systems</i> | | <i>upgrading systems</i> |
| Type of company | | Yes | | No | | |
| | <i>Technology supplier</i> | x | | | | |
| | <i>End-user</i> | x | | | | |
| | <i>Research unit</i> | | | x | | |
| | <i>Consulting company</i> | x | | | | |
| | <i>Engineering company</i> | x | | | | |
| <i>Production company</i> | x | | | | | |
| Experience in research projects | | | x | | | |
| Other comments | | | | | | |
| Expectations from Record Biomap, e.g. - to find consortium partners for possible projects? - do you already know any funding call or other funding opportunities? - attend our planned workshops? - to find customers? | The company is interested in the possibilities of implementing new innovative technology in biogas plants. Participating in Record Biomap project will give opportunity to find new companies, research units to cooperate with, it is interested in attending in workshop | | | | | |
