	<i>Engineering company</i>				x	
<i>Production company</i>				x		
Experience in research projects			x			
Other comments						
Expectations from Record Biomap, e.g. - to find consortium partners for possible projects? - do you already know any funding call or other funding opportunities? - attend our planned workshops? - to find customers?	We are very interested in participating in European research projects as well as in attending your planned workshops to meet colleagues, who work on the topics and to share our scientific results.
